SSR1200 Dimensions: 15" H x 10" W x 8" D  
Measures 1,200 cubic inches

SSR1900 Dimensions: 17" H x 16" W x 11.5" D  
Measures 1,900 cubic inches

### CONTENTS / PARTS INCLUDED:

<u>Qty</u>	<u>Item</u>	<u>Qty</u>	<u>Item</u>
1	SSR Bag	1	Backpack Strap
2	Mounting Straps	1	Instructions

### IMPORTANT:

All "NOTE," "CAUTION" and "WARNING" notations are serious safety issues and should be read carefully. Possible injury to riders or damage to the motorcycle and/or this bag may result if improperly installed.

### NOTICE TO DEALERS:

These instructions contain important information for future reference and should be given to the customer.

### CAUTION:

READ THESE INSTRUCTIONS THOROUGHLY BEFORE INSTALLATION!

Because of the variety of motorcycle configurations, other accessories, and the features and intended use of this Saddlemen accessory, there could be many different mounting options. You are responsible for the proper installation of this luggage onto your motorcycle. Your attention to these installation instructions and recommendations will permit safe and proper use of this luggage. You must mount this bag properly and securely before riding your motorcycle. If you lack the ability to safely and properly install this bag, seek out a qualified motorcycle technician for assistance. During installation, support the motorcycle with a suitable stand or lift so it will not tip over and injure you, or damage the vehicle. Using or mounting this bag improperly could result in a loss of control of the motorcycle which could result in damage to your motorcycle or other personal property, the property of third parties, and/or personal injury to yourself or others, up to and including death.

IS-33-400238 SSR Bags (Rev 4 02-2023)

17801 SOUTH SUSANA ROAD, RANCHO DOMINGUEZ, CA 90221

PH: 310.638.1222

## CAUTION:

- Do not exceed 15 pounds total weight of bag, contents and attachments, and never exceed your vehicle's Maximum Gross Vehicle Weight as listed on your vehicle or in the manufacturer's owner's manual.
- When the bag is removed, all loose straps or bungee cords must be removed from the motorcycle, or secured, so that they do not contact or interfere with any part of the drive train, suspension, brakes or wheels before operating the motorcycle.
- Always remove or stow all shoulder and backpack straps before attaching bag to motorcycle.
- Check anchor points and mounting strap security at every stop.
- Continually check the security of this luggage at each stop as you ride. Hardware and straps on a motor vehicle can loosen during operation, so be sure to check these items frequently.
- If this bag is ever damaged, do not use it until inspected by a professional motorcycle dealer. Replace immediately if it has damage that will prevent it from being properly secured to your vehicle or if it will not securely function as intended.
- If you do not understand the mounting instructions or this warning label DO NOT mount this bag. Contact your local professional motorcycle dealer for assistance, or call the Saddlemen support line at (310) 638-1222.

## INSTALLATION:

This universal bag is provided with adjustable nylon straps, for mounting onto many different motorcycle configurations. Attachment locations vary depending on the motorcycle model and accessory options installed. Using the adjustable straps, you must secure the bag tightly to the passenger seat or luggage rack in a manner that prevents the bag from moving.

A sissy bar can also be used to help secure the bag. The mounting straps must hold the bag down against the seat or rack and then hold the bag against a sissy bar or other vertical surface.

### NYLON WEB STRAP MOUNTING

The nylon mounting straps must be securely attached to non-moving parts of the motorcycle, which might include rigid (nonflexible) turn signals, passenger grab rails, saddlebag supports, or exposed frame rails. The hasps must be connected on the bag so that they can't slip, loosen or become free during motorcycle operation.

1. See Fig. A. To disconnect the quick-release buckle, press in on the tabs and pull the male end out of the female end.

2. See Fig. B. To cinch the strap, attach or hold the buckle in place and pull the strap end down to reduce the strap's length.

3. See Fig. C. Use the metal hasp to attach the nylon straps to the D-rings and/or webbing loops located on the bag's body.

4. Remove or secure any loose strap ends. If you cut the excess nylon strap, carefully seal the cut edge with a small flame, like a lighter.

If you wish to use additional webbing straps, please order Saddlemen part number 3920-0155. These can be purchased from your local dealer or directly from Saddlemen.

IS-33-400238 SSR Bags (Rev 4 02-2023)

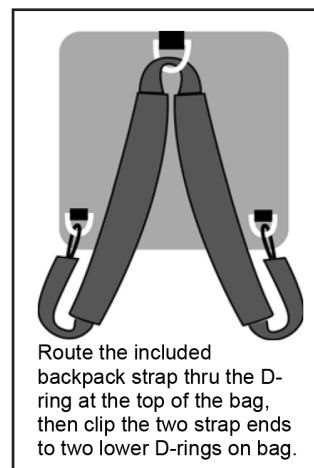

## FEATURES:

### BACKPACK STRAPS

Inside your bag, you'll find a strap with two long pads on it, and clips at each end (see illustration at right). Route this strap through the D-ring located at the top rear of your bag. Clip each strap end to the D-rings located at the bottom rear of the bag. You now have backpack straps.

You can also configure this as a shoulder strap, by attaching the strap to the D-rings mounted on the sides of the bag.

You must remove and stow all backpack straps before operating the motorcycle.

## CAUTION:

Failure to install this accessory properly may allow portions of the bag or its mounting materials to contact the vehicle's moving parts. It is vital that you verify that the accessory and/or any of its parts will not touch, or interfere with other components throughout the vehicle's entire range of motion.

DO NOT connect any straps to flexible or moving parts (items such as rubber mounted turn signals, swingarm or shock absorbers). Make sure that your bag does not touch the exhaust or other non-moving components, as well, as they may be damaged from contact with, or damage, the accessory.

You must tuck away, tie, or cut/shorten all loose mounting straps that might interfere with operation BEFORE you ride the motorcycle. Check bag mounting strap tightness each time you stop.

## IMPORTANT:

After 50 miles (80 kilometers) of riding, recheck the accessory bag and the mounting straps to make sure that they are still tight and secure. Inspect the bag and its mounting hardware more often if you are riding your motorcycle in wet or rough conditions. Inspect the bag and related hardware before and during each ride. A loose accessory bag and/or mounting hardware can interfere with the vehicle's operation and cause an unsafe riding condition.

## NOTE:

### CARE OF YOUR SADDLEMEN BAG

Your Saddlemen bag requires almost no maintenance other than periodic cleaning with mild soap and water and the application of a UV inhibitor to prevent color fading caused by UVA and UVB sun exposure. We recommend Ray Bloc® Fabric Protector or similar which can be purchased online or at your local home improvement store. Fading due to lack of maintenance is not covered by warranty.

## LIMITED WARRANTY POLICY

**SADDLEMEN LIMITED ONE-YEAR WARRANTY** Saddlemen warrants its products for defects in materials, design or workmanship for a period of one year after retail purchase. Items that are defective will be repaired or replaced by Saddlemen at its sole discretion. Damage caused by improper use or improper installation is not a defect; therefore repair, replacement or shipping of a damaged accessory will not be covered under this warranty. This limited warranty contains other provisions and conditions, so please refer to the Warranty Policy that was provided with your luggage or visit [www.saddlemen.com](http://www.saddlemen.com) for additional information. You can count on Saddlemen's quality, innovation, service and style. If for any reason you are not satisfied with the performance of your Saddlemen bag, please contact the Saddlemen support line at (310) 638-1222.
